

# Advanced Violence Threat Assessment and Risk Management Course

The Westin Bayshore, Vancouver, BC  
April 2 - 5, 2012

## ADVANCED VIOLENCE THREAT ASSESSMENT AND RISK MANAGEMENT COURSE

ProActive ReSolutions is pleased to present a 4-day Advanced Violence Threat Assessment and Risk Management Course, taking place April 2 - 5, 2012 in Vancouver, British Columbia.

The course will provide an opportunity for people who have basic or intermediate-level skills in threat assessment and management to develop and demonstrate mastery. The course will cover high-level skills such as case formulation, report writing, and expert testimony. Successful completion will be recognized with a certificate of competency.

This training event is being co-sponsored by the Canadian Association of Threat Assessment Professionals (CATAP).

### WHY ATTEND?

#### Take advantage of a rare educational opportunity

Many people have attended a workshop in threat assessment, but few have attended a high-level course that provides small-group instruction.

#### Make sure your expertise is recognized

Your employer, your clients, and the courts all want to know that not only did you attend training, you learned something at it. Individualized evaluation of your work allows us to offer a certificate of competency.

#### Strengthen your professional network

Meet others who specialize in threat assessment and learn from their experiences.

### WHO SHOULD ATTEND?

This course is designed for professionals whose work involves threat assessment and management., including those working in criminal justice, security, health care, social service, education, and human resources settings. Attendees should have completed basic training (4 days or more) in threat assessment and management training, including the use of structured professional judgment guidelines (e.g. HCR-20, SARA, B-SAFER, SAM, SVR-20, RSVP).

### WORKSHOP INSTRUCTORS

The workshop instructors are internationally recognized experts, prolific authors, and engaging presenters. They are passionate about providing evidence-based understanding, knowledge, and skills about violence risk assessment and management that professionals can apply in practice.
